

Grove Manitowoc National Crane Potain

Grove GMK4115L

Product Guide

Features

- 100 t (115 USt) capacity
- 11,7 m – 60 m (38 ft – 197 ft) 7 section full power MEGAFORM™ boom with TWINLOCK™ pinning
- 10 m – 17 m (33 ft – 56 ft) hydraulic offset bi-fold swingaway
- 26,1 t (57,500 lb) counterweight with hydraulic removal system
- Chassis engine: Mercedes-Benz OM 460 LA, 295 kW (396 bhp), torque 1900 Nm (1401 ft-lb)
- Superstructure engine: Mercedes-Benz OM 904 LA, 110 kW (148 bhp), torque 580 Nm (428 ft-lb)

Features

MEGATRAK™

The MEGATRAK™ suspension system is the best off road driveline available on the market today. The system's versatility and performance allows the GMK4115L to operate as a true all-terrain crane. The MEGATRAK™ independent suspension and all-wheel steer system allows wheels to remain on the ground at all times so stresses and weight are not continually transferred between axles. MEGATRAK™ provides true ground clearance where others just raise the chassis.

Other benefits of the MEGATRAK™ system are:

- A reliable suspension system
- Excellent job site maneuverability with all-wheel steering
- Commonality among almost all models
- A driveline that remains aligned at all times
- A steering linkage system that is protected against damage
- Constant tire contact for equal tire wear
- Reduced maintenance

TWIN-LOCK™

Boom pinning mechanism automatically pins the sections in position using two horizontal pins.

EKS 5 Light

Monitoring the lifting condition of the crane at all times EKS works together with, but independently of the ECOS as a complete command and control system or separately as a load moment indicator.

ECOS

Electronic Crane Operating System - ECOS enables control of the entire crane's principle operations. Simple programming eases lift planning and a supply of essential information allows full concentration on the lift itself.

Specifications

Superstructure

Boom

11,7 m – 60 m (38 ft – 197 ft) 7 section, full power MEGAFORM™ boom with TWIN-LOCK™ pinning. Maximum tip height: 63 m (207 ft).

Boom nose

Seven nylatron sheaves, mounted on heavy duty tapered roller bearings with removable pin-type rope guards. Quick reeve boom nose. Removable auxiliary boom nose with removable pin type rope guard.

Boom elevation

Single lift cylinder with safety valve provides boom angle from -1.5° to +82°.

Hydraulic offsettable lattice extension

10 m – 17 m (33 ft – 56 ft) bi-fold lattice swingaway extension, hydraulically offsettable and luffing under load, 0°- 40°.

Maximum tip height: 80 m (262 ft).

*Offsettable lattice extension

10 m – 17 m (33 ft – 56 ft) bifold lattice swingaway extension, manually offsettable at 0°, 20° and 40°.

Maximum tip height: 80 m (262 ft).

*Lattice extension

(1) 5 m (16 ft) insert for use with lattice swingaway extension to increase length to 22 m (72 ft).

Maximum tip height: 85 m (279 ft).

Load moment and anti-two block system

Load moment and anti-two block system with audio/ visual warning and control lever lockout provides electronic display of boom angle, length, radius, tip height, relative load moment, maximum permissible load, load indication and warning of impending two-block condition.

Cab

All aluminum constructed cab with acoustical lining, hydraulic tilted to 20°. Includes tinted safety glass, adjustable operator's seat, opening windows at side and rear, hinged windshield with wiper, sun visor and window shade. Other features include hot water heater/ defroster, armrest integrated crane controls, drive/steer controls and ergonomically arranged instrumentation.

Crane control system

Full electronic control of all crane movements using electrical control levers with automatic reset to zero. Controls are integrated with the LMI and engine management system by CAN-BUS. ECOS system with semi-graphic display.

Swing

2 axial piston planetary gear boxes with fixed displacement motors. Infinitely variable to 1.9 rpm. Free swing with holding (rocker switch) and service (foot pedal) brake.

Counterweight

26,1 t (57,500 lb) consisting of various sections with hydraulic installation/removal system controlled from the superstructure cab.

Engine

Mercedes-Benz OM 904 LA direct injected, after cooled with 110 kW (148 bhp) @ 2200 rpm.

Max torque: 580 Nm (428 ft-lb) @ 1200 rpm.

Engine emission: EUROMOT/EPA/CARB (non road)

Fuel tank

Integrated in carrier fuel tank.

Specifications

Superstructure - continued

Hydraulic system

2 separate circuits, 1 axial piston variable displacement pump (load sensing) with electronic power limiting control and 1 gear pump for swing.

Thermostatically controlled oil coolers keep oil at optimum operating temperature.

Tank capacity: 600 L (158 gal)

Hoist

Main and auxiliary hoist are powered by axial piston motor with planetary gear and multiple disc brake. "Thumb-thumper" hoist drum rotation indicator alerts operator of hoist movement.

	Main	Auxiliary
Line length:	255 m (837 ft)	255 m (837 ft)
Rope diameter:	17 mm	17 mm
Line speed:	120 m/min (394 fpm)	120 m/min (394 fpm)
Line pull:	56 kN (12,589 lb)	56 kN (12,589 lb)

Electrical system

24V system with three phase alternator, 28V/80A.
2 batteries 12V/170 Ah.

*Optional equipment

- ▶ Base boom mounted work lights
- ▶ Boom mounted aircraft warning light
- ▶ Stainless steel exhaust system with spark arrestor
- ▶ Diesel heater, also serves as engine preheater includes 24 hour timer for preheater
- ▶ Engine independent propane gas cab heater
- ▶ Additional worklight for superstructure cab
- ▶ Stereo radio/CD player
- ▶ Air conditioning
- ▶ Drive and steer control for superstructure
- ▶ EKS 5 with full graphic display
- ▶ 3,3 m (10.8 ft) side-stowed 3-sheave heavy duty jib integrated in swingaway
- ▶ Additional fuel tank for superstructure 185 L (49 gal)

Carrier

Chassis

Box type, torsion resistant frame is fabricated from high strength steel.

Outrigger system

Four hydraulic single stage outrigger beams with vertical cylinders and outrigger pads, 500 mm (19.7 in) square. Outrigger can be set in 5 positions:

Full	- 7 m (23 ft)
Partial	- 6 m (19.6 ft)
Partial	- 5 m (16.4 ft)
Partial	- 4 m (13.2 ft)
Retracted	- 2,6 m (8.4 ft)

Independent horizontal and vertical movement controlled from each side of carrier and the superstructure cab. Electronic crane level indicators.

Engine

Mercedes-Benz OM 460 LA direct injected with 295 kW (396 bhp) @ 1800 rpm.

Max torque: 1900 Nm (1401 ft-lb) @ 1300 rpm.

Engine emission: EUROMOT/EPA/CARB (non road)

Fuel tank capacity

400 L (106 gal). Supplies superstructure and carrier engines.

Transmission

Daimler Chrysler, G240-16

16 forward and 2 reverse speeds

2 speed transfer case

Drive/steer

8x6x8

Specifications

Carrier - continued

Axles

1st axle line – drive/steer

2nd axle line – steer/(optional drive)

3rd axle line – drive/steer (connects for all-wheel steer)

4th axle line – drive/steer

Drive axles with planetary hub reduction and center mounted gearing. Standard inter-axle and cross axle differential locks.

Suspension

Grove's exclusive MEGATRAK™ suspension. Independent hydro-pneumatic system acting on all wheels with hydraulic lockout. Suspension can be raised 170 mm (6.7 in) or lowered 130 mm (5.1 in) both longitudinally and transversely. Features an automatic leveling system for highway travel.

Tires

8 tires, 16.00R25 (Vehicle width – 2,75 m [9.0 ft]).

Steering

Dual circuit, hydraulic power assisted steering system. Transfer case mounted, ground driven emergency steering pump. Axles 1, 2, and 4 steer on highway. Separate steering of the 3rd and 4th axles for all wheel and crab steering, controlled by an electronic rocker switch.

Brakes

Service brakes: pneumatic dual circuit acting on all wheels.

Parking brake: pneumatically operated spring loaded brake acting on axle lines 2 and 4.

Standard anti-lock prevention (ABS).

Air dryer.

Cab

Two-man design with the following features: safety glass, driver seat with suspension, power windows, heated rear view mirrors, complete instrumentation and driving controls. Air conditioning and engine independent diesel air heater included with 24 hour timer.

ECOS control of suspension, drive connect and disconnect, inter-axle locks, differential locks and all-wheel steer.

Electrical system

24V system with three phase alternator, 28V/100A

2 batteries, 12V/170 Ah

Maximum speed

85 km/h (53 mph)

Gradeability (theoretical)

63.7% - 14.00 tires

56.7% - 16.00/20.5 tires

Miscellaneous standard equipment

Work lights for outrigger; tool kit; fire extinguisher; auxiliary boom nose; radio /CD player in carrier cab, wind speed indicator.

*Optional equipment

- ▶ Stainless steel exhaust system with spark arrestor
- ▶ 14.00R25 tires (vehicle width 2,75 m [9.0 ft])
- ▶ 20.5R25 tires (vehicle width 2,88 m [9.8 ft])
- ▶ Spare tire and wheel with carry bracket
- ▶ 8x8x8 drive/steer (additional drive, axle #2)
- ▶ Electric driveline retarder
- ▶ Steel outrigger pads
- ▶ Outrigger pad load indicator
- ▶ Trailer and towing hitches
- ▶ Engine independent diesel cab heater, with engine pre-heater
- ▶ Additional strobe lights
- ▶ Working range limiter
- ▶ Wireless remote control for all crane functions
- ▶ Data logger
- ▶ Rear mounted stowage box
- ▶ Engine upgrade to 335 kW (449 bhp)
- ▶ 360° NYC house lock

**Denotes optional equipment*
